

## Gas Distribution Services

HMI builds, upgrades, and maintains safe, high-quality natural gas distribution systems across the United States. From congested metro areas to rural country land, HMI's skilled crews work safely and efficiently, using state-of-the-art equipment and the industry's most advanced technologies.

The firm is a leading underground solutions provider, bringing a commitment to customer service and continuous improvement to every project. HMI installs all types and sizes of pipe for residential, commercial, and industrial applications. Every member of HMI's gas construction crew meets or exceeds Operator Qualification requirements.

With a focus on quality and sustainability, HMI has the knowledge and resources to deliver intelligent outcomes that are on schedule, on budget, and on target with clients' objectives.

## Gas Distribution

- Replacement and Renewal Programs
- Steel and Plastic Capabilities
- Integrity Management
- Keyhole Technologies and Vacuum Excavation
- Joint Trench Programs

### Commitment to Safety

HMI extends safety to every aspect of work. Safety drives the development of impeccable work practices and is at the core of the way behavior is observed, communicated, and investigated. HMI follows a daily safety management system of leading and lagging indicators, including coaching observation trends, work site audits, good catch and near miss reports, corrective action follow-ups, total recordable incident rates, days away, and restricted duty and transfers. With these indicators, HMI performs trend analysis and program validation of safety performance. This vigilant evaluation and implementation of company and industry-wide best practices make certain HMI maintains the absolute highest safety standards to protect our workers, our clients, and the community. HMI's daily mission is to ensure "Nobody Gets Hurt!"

### About

HMI is a multi-discipline, privately held firm that designs, builds, and maintains the critical infrastructure of the country. HMI brings extensive industry knowledge, technical excellence, and an integrated approach to engineering, planning, construction, project management, and turnkey delivery solutions for the power, oil & gas, and communications industries. HMI works closely with clients to assess each situation and achieve high-quality outcomes on projects of all sizes and complexity.
