About Us

HMI Technical Solutions is an industry-leading, privately held engineering and construction firm that delivers comprehensive utility infrastructure solutions. Within HMI Services, HMI Technical Solutions offers a broad portfolio of customer-focused services, including feasibility studies, surveys, constructability reviews, design and engineering, turnkey delivery, and consulting.

HMI Technical Solutions is a wholly owned subsidiary of Henkels & McCoy Group,

Project Management

Our proven Connected Infrastructure Model™ ensures that we consistently and seamlessly execute all of the fundamental parts and processes of infrastructure projects.

Anchored by our project management processes, systems, and procedures and supported by skilled, passionate people, the Connected Infrastructure Model™ drives results from project planning to implementation.

Our commitment to project management includes:

- Robust internal Project Management Organization (PMO)
- Project management training on scheduling, job tracking, cost management, risk management, leadership, and communications skills
- Project management systems and enterprise software tools to access project data at any time, on or off-site
- Work Management System that integrates financial and production tracking needs into a single comprehensive, customizable system
- Accountability for tracking progress and meeting overarching project goals

Our History

As a Henkels & McCoy Group company, we borrow from nearly a century of experience designing and constructing millions of miles of safe, reliable, and world-class infrastructure for our utility, commercial, and government customers. Throughout its storied history, Henkels & McCoy Group has demonstrated an ability to innovate and change to meet the needs of its clients. A company that started as a tree removal service has grown to consistently rank as one of the top specialty contractors in the United States, serving a range of infrastructure construction needs.
